Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

The present invention pertains a method apparatus and a method thereof for monitoring the accuracy of signals generated by an encoder. The prior arts do not tech the feature of determining a difference between two signals generated by an encoder that translates positional information into signals, wherein a value of the difference greater than a threshold value is indicative of a signal error. Hence the prior arts of record do not anticipate nor render obvious the claimed inventions. Thus claims 1-33 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine T. Tu whose telephone number is (703)305-9689. The examiner can normally be reached on Mon-Thur. 8:30am-6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Albert DeCady can be reached on (703)305-9595. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
